

Strategic and Continuous School Improvement Plan

for

Southwood High School

8655

**for the period of
July 1, 2020 to June 30, 2021**

Submitted by:

**Andrew McDaniel, Principal
September 22, 2020**

Table of Contents

Preface		3
Section 1	Documentation of compliance, including: (1) school improvement committee membership	4
	(2) record of annual review	26
Section 2	Description of school, community & programs including data presentation and analysis	5
	Description and location of curriculum	
	Additional assessments	
Section 3	Mission statement	17
	Belief statements	
Section 4	Status of current educational programming including: (1) curricular support for achievement of Indiana academic standards, (2) instructional support for achievement of the Indiana academic standards, (3) parental participation in the school, (4) technology, (5) safe and disciplined environment, and (6) professional development	21
Section 5	School Improvement Plan including: (1) student achievement objectives, (2) benchmarks for progress, (3) proposed interventions (4) instructional, technological, and professional development strategies	32

Southwood High School chose to adopt the continuous school improvement format of the North Central Association as its model for compliance with P.L.221. This decision was made following a review of other school improvement planning strategies and for the following reasons:

The NCA school improvement model

- is a continuous school improvement model;
- has a strong correlation with the plan components required by P.L.221;
- is supported by opportunities for professional development;
- has peer review as an integral component of the process;
- provides software for data analysis and the development of a school profile that facilitates consistent data gathering for each school;
- focuses on improved achievement for all students.

School Improvement Committee Membership

Rod Cole – Teacher

Tammy Farlow - Teacher

Shelly Faust – Teacher

Rita Griffith – Community Member

Andrew McDaniel – Principal

Michelle Sparling - Teacher

James Sparks - Teacher/Parent

Cheryl Stouffer – Classified Staff

School Profile

The staff of Southwood Jr/Sr High School is committed to providing all students with the opportunities necessary to maximize their learning potential. Since we believe that this is a shared responsibility between the home and school, Southwood Jr/Sr High School has adopted the following Mission Statement:

A partnership of students, educators, parents, and community is committed to providing a positive educational environment characterized by high expectations for success. Students will be taught to be active life-long learners, functioning cooperatively and independently in a changing world.

Positive Behavior Interventions and Supports:

Respect, Responsibility, and Personal Best

Metropolitan School District of Wabash County Vision, Mission, and Tagline

MSD Mission

Inspiring a community of learners to discover and achieve their passion and potential.

MSD Vision

MSDWC: Innovators and thinkers who are successful in life and enrich the lives of others

We are . . .

Creative problem solvers

Driven to take initiative and ready to roll up our sleeves and get the job done

Resilient and unafraid to fail. . . Try--Fail--Learn--Try again!

Self-reliant

Ethical, honest, and trustworthy

Tagline

Dream Big and Work Hard

Southwood Junior/Senior High School Model of Teaching and Learning

What Should Occur:

An opener/bellringer/journal
Put announcements/assignments on board or email to class
A 'warmup' for 'what's to come' in class - set the 'tone'
Taking attendance ASAP if skyward is operational
Make it clear to students the agenda for the day
Make it clear to students the objectives for the day
Greet students in some manner
The use of clearly measurable rubrics
Keep students on task (focused on agenda)
Allow time daily for feedback - questions or 'understanding check'
Constructive, quality feedback
Use wait time after asking a question
Teacher has a direction/plan and is following it and is flexible according to the needs of students
Great, open, two-way communication
Celebration of Student Success - Knight Notes
Review of previous content (spiral review: verbally or paper/digital)
Using data (homework scores, quiz/test scores, informal assessments) to drive the lesson
Differentiation
Provide feedback in a timely manner
Signing Assignment Notebooks or Planners for students with this plan
Effective questioning
Kindness to each other (& to self)
Being sensitive to students' circumstances while also expecting honest effort & classwork
Teacher demonstrates **enthusiasm** for content
Tie lesson to real-life applications.
Encouraging students who understand material to help a confused student.

What Might Occur:

Make up work check
Recognition for doing something great
Returning graded work to students
Project based lessons or direct instruction
Incorporating activities that are fun or interesting, as well as educational
Total class work/discussion, Small Group work, and/or individual work (may be 'student-led' as well as 'teacher-led')
Revising, editing work (Getting out of the "one and done" mentality)
Celebration of success
Knight Notes
Use of technology
Assignments which encourage critical thinking
Students tracking their own progress/grade (not relying on Skyward)
Review games of content
Parent Communication

What Seldom/Rarely Occurs:

Extended Free time (10 minutes or more)

Students who are not engaged in academic activity

Texting others (not course related)

Disrespect towards anyone

Absences without make up work occurring or leaving it all to the teacher to arrange

Disrespect towards students, teachers, property

Educational Field Trips

The District:

The Metropolitan School District of Wabash County serves families in Wabash County and the townships of Lagro, Liberty, Noble, Paw Paw, and Waltz. It occupies a 394 square mile area in Wabash County. It includes the small towns of LaFontaine, Lagro, Lincolnville, Roann, Speicherville, and Urbana. Four major state highways, State Road 13, State Road 15, State Road 24 and State Road 124 provide quick, convenient access to Huntington, Marion, North Manchester, and Wabash. The larger cities of Anderson, Muncie, Fort Wayne and Warsaw are within an hour's drive.

Southwood Jr/Sr High School (hereafter referred to as Southwood) services most of Wabash County south of the Wabash River. It is part of the Metropolitan School District of Wabash County. The school Corporation is governed by an elected school board, which consists of five members, one from each of three districts and two at-large.

The area served by Southwood has a heritage as a rural farm community. The student population is mainly rural with some students coming from small towns and the south edge of Wabash.

Although agriculturally related occupations are present, the business and industrial employment in the area exceeds that of farm employment.

The Southwood attendance area is serviced by one K-6 elementary schools and one 7-12 junior/senior high school. The junior high consisting of grades 7 and 8 shares the same building with the high school. If appropriate, some junior high students may be placed in high school level courses. The building opened in September 1962. A major renovation, including a new media center, computer lab, science labs, and some classrooms was completed in the spring of 1989. New technology was added in 1995 as well as upgraded athletic facilities. Another upgrade in technology and some athletic facilities was completed in 2005. In 2011, the school piloted iPads and laptops in several classrooms. The pilot program was so successful that the school went 1:1 with MacBooks for all students. Students used laptops from 2012 to 2020. Beginning the 2020-2021 school year, students will use iPads. Teachers have had multiple opportunities for training (during the 2019-2020 school year) prior to the students getting their iPads. In addition, the March 20, 2020 eLearning Day was devoted to iPad training for teachers and instructional aides. Our network has undergone several upgrades and we are a Google-based school. In July of 2018 after continued talks with the Unger Family of Wabash County, a 50-foot climbing wall was erected on the northwest side of the property. A renovation project was completed during the 2019-2020 school year. Painting and flooring were done in almost all parts of the building. Additionally, three conference and collaboration rooms were created in the library to help facilitate student work.

The mobility of the student body has increased during the past years, but is still stable when compared to the school population in other areas of the state. Approximately 92.6 percent of our students are Caucasian, three percent Hispanic, three percent multi-racial, .5% Asian, and .5% Black/African-American, according to most recent data. A significant percentage of our students have been in our system their entire school career. In the last decade, Southwood has seen a decline in the number students who purchase their lunch. In 2005-2006, 83.7% of the students paid for their lunch. For the 2019-2020 school year, that number decreased to 64.2%.

The English, mathematics, science, and social studies departments each have chairpersons. There are also two at-large department chairpersons. Each subject area, in conjunction with the principal and corporation chief academic officer, is responsible for formulating, updating, and evaluating curriculum. A variety of classes are offered, including college prep and vocational classes. At the present time we offer a number of advanced placement classes. For the 2020-2021 school year, 46% of the senior class, 44% of the junior class, and 24% of the sophomore class attend AM or PM classes at Heartland Career Center. Additionally, 31% of the 2020-2021 senior class is participating in work-based learning or internships with local business and industry. Students with special needs are serviced through the Wabash-Miami Area Program for Exceptional Children. At Southwood we provide services for the LD and MIMD programs. Lastly, Southwood High School is participating in the AP-TIP IN program sponsored by the University of Notre Dame for the 2019-2020 and 2020-2021 school years. This program provides ongoing collaboration and training free of charge. Students and teachers are given financial incentives for qualifying scores and improving student participation in AP courses.

Southwood has an At-Risk program which serves grades 7-12. Referrals are made to guidance and then given to the At-Risk supervisor. Grades and background information are used to determine admittance to the program. The Behavior Intervention Team (B.I.T.) meets monthly to review academic and behavioral data and decide upon a course of action with individual students. Accelerated students are served through advanced placement classes. Additionally, F-List Reports are compiled generally every two to three weeks to analyze student progress. Students whose name appears on the F-List on two different occasions during a quarter are required to attend tutoring sessions after school (Roundtables). Additionally, students who are repeatedly on the F-List are referred to the Behavior Intervention Team (B.I.T.). Steps are then taken to intervene and offer assistance to the struggling student. For students with mental health needs and to further inform staff members about the various socioeconomic groups, ethnic groups, and language-minority groups; Southwood has a partnership with the local Bowen Center. All MSD students are guaranteed two free sessions as part of this working agreement. To improve the cultural competency of teachers, the March 2019 eLearning Day consisted of a workshop delivered by Dr. Lori Desautels regarding trauma-informed care. Additional trainings have been offered to help with social-emotional learning.

The school day is divided into seven forty seven-minute periods including a lunch period that is divided into three twenty-five-minute periods. Additionally, each student attends a homeroom period. Homeroom teachers from the different grades meet several times throughout the school year to review goals. The junior and senior homeroom goal is passing class to improve or sustain the graduation rate. The freshman and sophomore homeroom goal is to improve grades so that all students pass their classes. The seventh and eighth grade goal is to improve reading

comprehension and improve iLearn performance (80% pass rate on both math and English/Language Arts).

While board policy requires each student to be in class a minimum of five class periods a day, most of our high school students are in class for six instructional periods and one study hall.

Students may choose to take seven classes. All courses figure in the GPA and only AP courses are weighted. The grading system is on a twelve point scale with A+ = 12. Beginning in 1995, the student's GPA determines placement on various honor rolls. In order to expose the seventh grade class to a variety of practical arts, a wheel class is offered that rotates every quarter. They are exposed to curricula from agriculture, industrial arts, art, and world languages and cultures. Junior high students who choose to participate in band or choir do not have a study hall.

The school year is divided into two eighteen-week semesters, and each semester has two nine-week grading periods. Teachers are expected to make weekly updates to Skyward regarding student grades. Important event information is shared with parents on various social media outlets. Additionally, parents can request to have announcements sent to them via email. Parents are encouraged to set up appointments with teachers through the guidance department.

Our students have many opportunities to participate in interscholastic competition, both academically and athletically. Students may participate in interscholastic competition in English, mathematics, and agriculture. Fine arts competitions include art, instrumental, and vocal contests. Team sports include the following: baseball, basketball, cross country, football, golf, softball, tennis, track, volleyball, claybuster target shooting, and wrestling. Intramural basketball

is offered to all high school students. Southwood also has a thriving Robotics Club. Students have participated in a number of competitions and even hosted competitions at Southwood High School.

Parents and other community members frequently participate in school activities. The music parents and adult athletic booster clubs are involved in those students' interests. Parents chaperone dances and some field trips. Parents are also involved in advisory boards and evaluation committees.

The school climate is a safe and disciplined learning environment. The students and staff have SNAP/ID cards that identify them and are used to purchase food in the cafeteria or check out materials in the Media Center. The ID cards are also used to access various parts of the building that are locked during the day. To further emphasize the importance of staff wearing the ID card, they are required for entrance into the building and also operate the copy machine. Cameras are placed strategically inside and outside the school to monitor the halls and school grounds. Parents and students can electronically submit anonymous tips about bullying or other issues of school safety to Southwood High School administration. Teachers monitor the halls between classes and the parking lot before and after school. Additionally, the school district hired two full-time school resource officers beginning the 2019-2020 school year. Half of their benefits and salary are financed by the Secured Schools Safety Grant.

A survey was given to graduating seniors of 2018 and 2019 concerning their post-secondary plans. For 2018, seventy-four percent of those students surveyed stated they would pursue

college or post-secondary education. For seniors graduating in 2019, again seventy-four percent indicated they would pursue college or post-secondary education. Two percent of 2018 graduates indicated they would pursue the military after high school, whereas none of the graduating seniors from 2019's graduating class indicated pursuing the military. Twenty-one percent of graduating seniors from 2018 and twenty-five percent of graduating seniors from 2019 indicated they would pursue a full-time job after high school. For the class of 2020, 51% of graduates indicated they would pursue a two-year or four-year college degree; 16% indicated they would pursue an apprenticeship; four percent indicated joining the military; and 29% indicated they would join the workforce.

The basic structure and function of Southwood Jr/Sr High School has remained fairly consistent. For the 2019-2020 school year, however, our normal routines were interrupted because of Covid-19. Southwood Junior/Senior High School close the physical building to students after school on Friday, March 13. Through a combination of waiver days and eLearning days, students were able to complete the school year on Friday, May 8. Once the students had fulfilled their academic obligations, faculty members met to discuss successes, items to improve on, and transitions from various grade levels within subjects to be better prepared to begin the 2020-2021 school year.

The Economy:

Over seventy-five percent of the Southwood community's total land area is used for farming. Local businesses include grain elevators, a car dealership, hotel/restaurant, and many retail establishments. These businesses provide seasonal and year-round

employment. Many Southwood residents also find employment in nearby Marion and Kokomo.

Civic Life:

Many churches, clubs and civic organizations enrich the lives of Southwood citizens.

They contribute immensely to the spiritual and social well-being of community residents.

Three nearby reservoirs, Mississinewa, Salamonie, and Huntington, provide excellent opportunities for fishing, boating, water skiing, swimming, camping, and hiking.

Surrounding communities offer good facilities for bowling, golf, tennis and cinema.

Neighboring Marion and Kokomo support a strong civic theater and a philharmonic orchestra.

Higher Education:

Two state universities operate campuses near Southwood: Indiana University at Kokomo and Ball State University at Muncie. Each offers extensive evening and summer courses.

Manchester College is an outstanding private college located in Wabash County. Two excellent private colleges, Indiana Wesleyan University and Taylor University, are located in Grant County. Qualifying juniors and seniors are given the opportunity to take college courses at Indiana Wesleyan and Indiana University-Kokomo during the morning. IVY Tech Community College maintains campuses in Marion, Kokomo, and Muncie.

The Corporation's History:

In 1959, the Somerset, Noble, and LaFontaine school systems consolidated to form Southwood Jr/Sr High School. The corporation began a building program immediately after its original consolidation. According to a long-range plan, the buildings in Lagro (1980), Roann (1969), Chippewa (1969), and Urbana (1980) were used as elementary schools until the

replacement of new structures – designated in parenthesis. The LaFontaine building's last year as an elementary school was 2013-2014. Two junior/senior high school complexes were opened in the fall of 1963. The opening of a new physical education addition to these complexes in 1979 completed the program. An outstanding feature of the physical education facility is an indoor track. Further upgrades in technology and some athletic facilities were completed in 2002 - 2005. MSD of Wabash County students now enjoy excellent school buildings with all of the facilities for a flexible, student-centered approach to learning.

Data from the 2019-2020 school year shows that MSDWC's K-12 educational program has 2,159 students. Grades Pre-K-6 are taught at Metro North, Sharp Creek, and Southwood Elementary Schools. Grades 7-12 are housed at Northfield and Southwood Jr/Sr High Schools. The corporation endorses the principle of equal opportunity and adheres to all Title IX regulations in its student policies.

The Junior/Senior High Program:

Southwood Jr/Sr High School tailors its educational program to individual student needs. It strives to impart the values, knowledge and skills which the maturing student needs for educational, occupational, and personal success. According to 2019-2020 data, there were 394 students at Southwood Junior/Senior High School. As of August 19, Southwood Junior/Senior High School has 389 students in attendance. Although small, the high school offers an unusually large number of elective courses. Southwood High School students may also enroll in technical and trade courses through the Heartland Area Career Center in Wabash.

Students can also earn college credit through Indiana Wesleyan University and Indiana

University-Kokomo and through dual credits courses at the high school. Additionally, Southwood is participating in the AP-TIP IN program sponsored by the university of Notre Dame. This program incentivizes increased student participation in AP courses and achieving qualifying scores on AP tests. Southwood offers the opportunity for aspiring teachers to assist elementary teachers in their duties through the cadet teaching program. Southwood became a 1:1 school during the 2012-2013 school year. From 2012 to the 2019-2020 school year, each student in grades 7-12 was assigned a MacBook Air laptop computer. Beginning the 2020-2021 school year, students will be assigned iPads. Southwood's small enrollment encourages close rapport between students and teachers. Frequent opportunities arise for informal counseling by teachers, and an excellent formal counseling service also assists students with personal problems and future plans. The Metropolitan School District of Wabash County offers extensive special services to meet the educational needs of children with physical, intellectual, social or emotional differences. These services involve instruction in classrooms, homes, and hospitals. Frequently occurring special needs are served through individualized programs for exceptional children. These programs ensure a free and appropriate education providing flexibility, atmosphere, environment and opportunities for the pupil to experience success in reaching his/her maximum potential. The goal of these programs is to prepare each child to become a successful, independent citizen. Low-incidence special needs are fulfilled through the Wabash-Miami Area Program for Exceptional Children. Southwood Jr/Sr High School exhibits many educational features of which its faculty, students, parents, and community can be justifiably proud. The warm caring attitude of the faculty, support staff, and administration, coupled with the supportive attitude of the parents, provides an environment in which students can achieve maximum

personal growth.

Description of Curriculum and Location:

Southwood High School offers four types of diplomas: a General Diploma, a Core 40 Diploma, Technical Honors Diploma, and an Academic Honors Diploma. Students are made aware of the different diplomas, and are encouraged to work towards completion of the Core 40 Diploma, Technical Honors Diploma, or Academic Honor Diploma.

All students take an introductory business class for a semester during grade eight. At that time, students are exposed to career choices that may relate to their interests and skills. When students matriculate to high school, they are required to take Preparation for College and Careers. This course allows students to extend their career exploration from their eighth grade business class. They also research future employment options. During a student's later school years (grades 11 and 12), students can take assessments to guide them to a career in their interest area. Students are also given opportunities to job shadow. Our Work-Based Learning Program offers students the opportunity to do an internship in a career field of their choosing.

Southwood Jr/Sr High School offers a variety of courses and activities for students interested in a challenging academic experience. During the instructional day, advanced placement courses are offered in several subjects, including math, English, social studies, and science. Beginning the 2020-2021 school year, students can take Computer Science I and Computer Science II. Extracurricular opportunities available include academic teams (English and math), FFA, art,

instrumental and vocal contests, and athletics.

Assessments:

Grade	Assessment
7	iLearn (Spring)
8	iLearn (Spring)
9	ISTEP Biology (Spring)
10	PSAT (Fall)
11	ISTEP Retakes (if applicable) AP Tests SAT/ACT Accuplacer
12	ISTEP Retakes (if applicable) AP Tests SAT/ACT

In adherence to state law to provide remediation opportunities to below standard students on the iLearn, Southwood Jr/Sr High School offers a Remediation Program designed to review basic English and math skills based on the appropriate grade levels. Students who are below standards on the iLearn or ISTEP are required to participate. Students not meeting state standards are required to attend a remediation program at least once a week during their homeroom period. Southwood has an At-Risk program which serves grades 7-12. The At-Risk Aide is a licensed special education teacher. Referrals are made to guidance and then given to the At-Risk supervisor. Grades and background information are used to determine admittance to the program.

The Remediation Program is held in various English or math teachers' classrooms. The At-Risk Program is housed in a classroom. The special services programs incorporate a variety of

learning environments, including, inclusion and direct instruction. The following programs and resources are used for the remediation and special services programs:

iLearn Remediation Resources & Programs

Section 3

School Mission Statement:

Southwood Jr/Sr High School provides academic and activity-based experiences, which cultivate a partnership among the school, the home, and the community, providing an opportunity for diverse learners to become independently functioning citizens.

Belief Statements:

- We believe teachers, parents, and the community along with the student share in the responsibility and support of the student’s education.
- We believe each student is a valued individual with unique physical, social, emotional, and intellectual needs.
- We believe each student learns in a different way and believe that each student deserves the opportunity to achieve at his/her own ability level.
- We believe a safe, clean environment which is physically suitable for learning should be provided for each student.

- We believe mutual respect should exist between staff and students.
- We believe each student deserves open and equal access to all school opportunities.
- We believe each student deserves educational challenges which encourage each to strive toward his/her highest potential.
- We believe course work should be applicable to each individual student’s educational and career plan.
- We believe each student is expected to actively participate in the learning process.

Section 4

Indiana Academic Standards:

Curriculum development is based on the current Indiana Academic Standards. Departments regularly review and revise curriculum and update as needed.

*IC20-10.2-3-3©
IC20-10.2-3-5(a)(6)(A)*

Instructional Strategies:

Teachers use a variety of instructional strategies to integrate the Indiana Academic Standards in lesson development. These strategies include, but are not limited to, the following: performance-based instruction, standards based grading, flipped classroom instructional strategy, cooperative learning, modeling, kinesthetic activities, project-based learning, technology integration, and traditional teaching methods.

IC20-10.2-3-3©

Parental Involvement

Southwood Jr/Sr High School has various opportunities to foster and promote parental involvement. Some opportunities that are currently in use consist of parent-teacher communications, special projects, parent organizations, extracurricular events, and athletic events.

☒ Parent-Teacher communications at Southwood Jr/Sr High School:

1. Open House: Before the first day school, the junior high hosts an open house for incoming seventh graders and parents. This provides a great opportunity for parents to meet the teachers in an informal setting.
2. Internet Web Site: The school web site currently contains an activities calendar and the daily student announcements which provide valuable information to parents who have access to the internet.
3. Skyward: Skyward is updated regularly. It communicates a wide-range of information from school: meal card purchases and balances, missing assignments, up to the minute grades, term grades
4. Email: All teachers in the school have access to email. Some teachers are currently using email to communicate directly with parents.
5. Parent/Teacher Meetings: Faculty, students, parents and administration are actively involved in these meetings for the purpose of helping individual students increase achievement.
6. Parent/Teacher Conferences: Parent/Teacher Conferences are hosted during an extended day in the fall. These conferences provide interactions which allow communication regarding student progress. Grade cards are handed out at the conferences.
7. Social Media: Staff members at Southwood take advantage of social media, particularly Facebook and Twitter, to share information and celebrate student and staff accomplishments. Additionally, the Marketing class has established an Instagram account for SHS and regularly posts information about school events.

☒ Southwood Jr/Sr High School parents are actively involved in special projects.

☒

1. Southwood Jr/Sr High School field trips
2. National Honor Society reception following the induction of new members
3. Senior/Awards program
4. FCA trips
5. Washington, D.C. field trip for 8th grade students (For the 2020-2021 school year, ninth graders will be allowed to attend the trip as their trip was postponed due Covid-19).

☒ Southwood Jr/Sr High School parents are actively involved in school organizations.

1. Athletic Parent groups
2. Music Parent groups
3. Agriculture Advisory Board.

Southwood Jr/Sr High School parents are actively involved in extracurricular events.

1. Student Congress Career Development event
2. Chaperone dances
3. Attend, volunteer, and work at football, volleyball, cross-country, basketball, wrestling, track, baseball, softball, cheerleading and golf events

School Plan for a Safe and Disciplined Learning Environment

Southwood Jr/Sr High School currently has several items in place that contribute to its safe and disciplined learning environment. They are as follows:

- 1. Metropolitan School District of Wabash County Junior/Senior High Student Handbook**
The handbook is given to each student in digital form on the school-assigned laptop at the beginning of the school year and is also be posted on the high school web site (www.msdbc.k12.in.us). It includes what the school expects from students, guidelines for student conduct, and the discipline policy with discipline grid. The discipline grid lists infractions and the specific disciplinary action that will occur for each infraction. This helps students, teachers, staff, and parents know what to expect when an infraction occurs and helps contribute to a safe and disciplined learning environment.
- 2. Metropolitan School District of Wabash County Crisis Response Guide**
The response guide is given to all teachers and staff. It covers how to handle various emergency situations such as bomb threats, earthquakes, fires, and guns or weapons. Teachers and staff are reminded at the beginning of the school year to review its contents.
- 3. Telephones in All Classrooms**
Telephones were installed in classrooms to give teachers immediate access to the school office in case of emergencies. The telephones are tested and maintained so that they are guaranteed to be in proper working order.
- 4. Enforced Pass Policy**
Southwood Jr/Sr High School has established guidelines for visitors. These guidelines are strictly enforced. There is a sign posted at every entrance to the building requiring visitors to check into the school office. In addition, all entry doors are locked during school hour with the exception of the main entrance by the school office. The school uses the Raptor System to ensure visitors are vetted and safe to enter the building.
- 5. Security Cameras/SNAP Cards/Online Messaging Service**
Multiple security cameras have been installed in the building. There are currently cameras on, twenty-four hours a day, to monitor various parts of Southwood Jr/Sr High School building and campus. These cameras are placed in strategic locations throughout the school building to help maintain and provide for a safe and disciplined learning environment. Students and staff have SNAP/ID cards that identify them and are used to purchase food in the cafeteria or check out materials in the Media Center. The ID cards are also used to access various parts of the building that are locked during the day and serve as the access to the photocopying machines. An online messaging service allows students and parents to anonymously send messages to school administrators about issues

of concern. Additionally, students are encouraged during class meetings and throughout the year to send messages to school administration if they have concerns.

6. School Safety Specialists.

Currently, the Southwood Junior/Senior High School Principal and Assistant Principal and the Southwood Elementary School Principal are certified school safety specialists. The School Nurse Supervisor, Maintenance Director, and Assistant Superintendent of Finance are also certified school safety specialists. Grant Langebartels, the SRO assigned to the south schools, is a certified School Safety Specialist. Additionally, all certified School Safety Specialists attend regional safety trainings every year.

IC20-10.2-3-5(a)(7)

Technology

Southwood Jr/Sr High School has various types of technology available for both staff and student use. Southwood Junior/Senior is a 1:1 school. Beginning in the 2012-2013 school year, all students in grades 7-12 were assigned to a MacBook Air laptop computer. Starting the 2020-2021 school year, students and staff will be issued iPads. Teachers will receive both iPads and new MacBook Airs. All devices are networked and have e-mail capability and Internet access for improved communication between administration, staff members, students and parents. Additionally, many different kinds of software are pre-loaded on these laptops for student educational use. Safety and security are very important at SHS. To achieve a safe and secure cyber-environment, the school employs various software programs (e.g., Apple Classroom, Human Monitoring System) to monitor student activity.

The school has a technology assistant who is capable of helping staff and students. The coordinator is available to help an entire class or individuals as the case may be. The business department offers a wide range of classes that teach students differing aspects of technology.

The school staff has received training on the computer and many of the software programs available. Training was provided by the school corporation when the network was installed. As new staff is hired, training is provided by the Technology Assistant.

The technology applications listed above are a result of the faculty and staff's desire to improve the integration of technology, which is an integral part of the School Improvement Plan. Please refer to the School Improvement Plan/Action Plan for specific methods on how technology will be continuously integrated into instruction.

**Indiana Department of Education
Professional Development Plan**

School Name: Southwood Jr/Sr High School

County/Corp/School Number: Wabash/ Metropolitan School District of Wabash
County/8050

Address: 564 E. State Road 124
Wabash, IN 46992

Phone: (260) 563-8050

Fax: (260) 569-6843

Name of Principal: Andrew McDaniel

Principal's e-mail address: mdaniela@msdwc.k12.in.us

Grade levels included in school: 7-12

1. Vision for Professional Development

Our vision, as a staff, for the professional development program is to help students reach their maximum potential. It is our intent that the Southwood Jr/Sr High School faculty will pursue research of instructional programs that utilize a wide array of teaching methods. Differentiated instruction will enable us as teachers to more effectively assist all students in learning, meeting standards and obtaining the necessary skills. Our vision includes engaging all faculty members in the investigation and participation of trials, usage, and reflection of alternative methods of teaching. We will investigate both discipline-specific and interdisciplinary methods of teaching. We will proceed through this in the hope of meeting the individual needs of a wider range of students. We seek to create an environment that fosters the exchange of ideas. To that end, Department Chairs are currently conducting a book study of John Hattie's *Visible Learning* and will finish that text this school year. During the September eLearning Days for the 2017-2018 school year, all SHS teachers attended a presentation by Rick Wormeli, a renowned educational speaker and expert on Standards-Based Grading. Shortly thereafter, several staff members and administrators started a book study of Wormeli's *Fair Isn't Always Equal*. Upon completion of this text, their next area of focus was Simon Sinek's *Start with Why*. Additionally, the faculty and staff studied some of the highlights of Robert Marzano's *Leading A High Reliability School*. Following the guidance of this text, we established a school-wide model of teaching and learning. This collaboratively developed document gives teachers guidance about expectations for their classrooms.

2. Professional Development Program Goals

We have four goals for our Professional Development Program: improve school climate and student engagement, integrate technology, and continue to focus on the most important aspects of our school-wide model of teaching and learning. This document will help us focus our instructional aspects of our professional development plans.

Another goal is to improve school climate. We would like to continue train teachers in diverse methods of communication and research alternative methods of schooling for some students. During the 2014-2015 school year, all staff members took part in S.T.A.R.T. with H.E.A.R.T. training, a communication strategy invented by the Cleveland Clinic. New staff members need to be trained during morning meetings, during eLearning Days, or during other occasions. Additionally, several staff members have been trained in Handle With Care, a crisis intervention and behavior management strategy. Each staff member trained in HWC methods must go through a recertification course every year. We also have a thriving Positive Behavior Interventions and Supports (PBIS) Committee at Southwood. This committee seeks to improve student behavior and school climate by working toward three goals:

1. Disciplinary Referrals Per Day rate of 4.5
2. 97% attendance

3. 95% graduation rate

As a result of reaching this goal we would like to see student behavior improve, student relationships improve, and more student success. These things would improve teacher and student satisfaction.

A third goal of our program is to continue to integrate technology into our curriculum. We would like for time to be provided to the teachers to not only learn how to use the updates but also figure out how best to integrate the technology into existing curriculums. This would enable teachers to effectively utilize the technology in their instruction. We will continue to utilize the different learning styles of the students, which should lead to increased student satisfaction. Additionally, the 2020-2021 school year will see the full implementation of iPads and a phasing out of the laptops for student use. To facilitate this transition, several teachers have already received training on the new devices. During our March 2020 eLearning Day, staff members were given preliminary training on iPads. Our goal is to see all teachers and instructional aides certified on these devices. As of summer 2020, nearly $\frac{2}{3}$ of this group is certified.

In summary, we would like keep looking toward our vision of helping students reach their maximum potential. We hope to do this by building improving school climate and integrating technology. As a means of ensuring our efforts toward substantive school improvement, we will look to follow the model of a high reliability school defined by Robert Marzano in *High Reliability Schools*.

3. Staff Involvement in Continuous Learning

Teachers will be given time throughout the school year to work on developing, revising, and ameliorating curriculum maps. The PBIS Committee; which is made up of several teachers, two administrators, and a Student Congress representative; will meet on a regular basis (at least monthly) to discuss our progress toward our three goals. Staff and students will receive regular updates on our progress.

For the 2020-2021 school year, Southwood Junior/Senior High School, and the Metropolitan School District as a whole, will implement iPads for technology usage. During the 2018-2019 school year, a district-wide committee was established and different options were explored. Several teachers then voluntarily participated in extensive training through Apple on iPads during the summer of 2019. As with any technology integration, new staff members will need more intensive training. Also, as software is updated, teachers will need additional training to "refresh" their capabilities. Teachers will be given time to collaborate and study with other teachers on how best to integrate the technology into their existing curriculum.

ACTION PLAN

School Goal # 1: By 2020-2021, 7th and 8th grade students will show better than state average growth in language arts on the iLearn Assessment and 10th grade students will outperform the state average in Language Arts on iLearn.

Professional Development Goal (s):

1. Southwood Jr/Sr High School will work to increase student engagement.
2. Southwood Jr/Sr High School will integrate technology into the curriculum.
3. Southwood Jr/Sr High School will develop curriculum maps in all courses.

	<u>Intended Audience</u> (Stakeholders)	<u>Person Responsible</u>	<u>Collaborative Partners Needed</u>	<u>Time Line</u> (Include completion date)	<u>Resou</u> (People, mat	<u>Ne</u>
In-service	Teachers	SHS Admin	Teachers	September–May; Throughout the school year	Planned Time Staff	
Collaboration	Teachers	Department Chair	Teachers	September-May; 1 time/month	Planned time Staff	
Book Studies (Wormeli's <i>Fair Isn't Always Equal</i> , Hattie's <i>Visible Learning</i> , Sinek's <i>Start with Why</i> , Marzano's <i>Leading a High Reliability School</i>)	Teachers	Admin and Department Chair	Teachers	September-May; 1-2 times/month	Planned Staff Time; Books	

School Goal # 2: By 2020-2021, 7th and 8th grade students will show better than average growth in mathematics on iLearn and 10th grade students will perform better than the state average in Mathematics iLearn.

Professional Development Goal (s):

1. Southwood Jr/Sr High School will work to increase student engagement.
2. Southwood Jr/Sr High School will integrate technology into the curriculum.

3. Southwood Jr/Sr High School will develop curriculum maps in all courses.

<u>Activity</u>	<u>Intended Audience</u> (Stakeholders)	<u>Person Responsible</u>	<u>Collaborative Partners Needed</u>	<u>Time Line (Include completion date)</u>	<u>Resou</u> (People, mat	<u>Ne</u>

Evaluation

School Goal # 1

By 2020-2021, 7th and 8th grade students will show better than state average growth in language arts on the iLearn Assessment and 10th grade students will outperform the state average in Language Arts on iLearn.

I. Summary of data and evidence upon which this school goal was based:

ISTEP/iLearn scores

Class Grades

II. What new knowledge, skills, and attitudes toward learning will result from your Professional Development Program?

Teachers will develop a better understanding of the Indiana State Academic Standards and will integrate this knowledge into curriculum development.

Differentiated teaching methods will reach different learning styles.

Technology will be updated and training provided.

Teachers will deepen their knowledge of teaching practices and effective interventions.

Software will be used to enhance skills.

III. What data and evidence related to new knowledge, skills and attitudes towards learning will you collect to evaluate the Professional Development Program's impact on progress towards this school goal?

Department chairpersons will report on collaboration and methods being used in the classroom.

School Goal # 2

By 2020-2021, 7th and 8th grade students will show better than average growth in mathematics on iLearn and 10th grade students will perform better than the state average in Mathematics iLearn.

I. Summary of data and evidence upon which this school goal was based:

ISTEP/iLearn scores

Class Grades

II. What new knowledge, skills, and attitudes toward learning will result from your Professional Development Program?

Teachers will develop a better understanding of the Indiana State Academic Standards and will integrate this knowledge into curriculum development.

Differentiated teaching methods will reach different learning styles.

Technology will be updated and training provided.

Teachers will deepen their knowledge of teaching practices and effective interventions.

Software will be used to enhance skills.

III. What data and evidence related to new knowledge, skills and attitudes towards learning will you collect to evaluate the Professional Development Program's impact on progress towards this school goal?

Department chairpersons will report on collaboration and methods being used in the classroom.

The school improvement plan for Southwood Jr/Sr High School is outlined in the following pages. Our plan is presented in this format in order to:

- Focus on the interventions as the means to accomplish the stated goals.
- Recognize the correlation that exists between increasing student achievement and the expansion of instructional strategies, the integration of media and technology into the curriculum, and the need for professional development to accomplish these goals.
- Create a document that can be easily communicated to and understood by all stakeholders.

Assessment of the current status of educational programming includes the following: *IC20-10.2-3-3(b)(1)* <!--TH {font-family: 'Arial';
IC20-10.2-3-3(b)(2) font-size: 9pt}

Strategic and Continuous School Improvement and Achievement Plan Southwood Jr/Sr High School

Goal 2018-2019	Southwood Junior/Senior High School will maintain a 97% attendance rate for the 2018-2019 school year and beyond.	
Benchmark	Southwood Jr/Sr High School's attendance rate for 2018-2019 was 94.95%. The attendance rate for 2019-2020 was affected by the school closing due to Coronavirus.	
Supporting Data (Triangulate the data)	Assessments	
<ul style="list-style-type: none"> ◆ State attendance records ◆ Letters to parents informing them of their child's absences ◆ Pre-arranged absence data 	◆ Standardized	◆ Locally Developed
	<ul style="list-style-type: none"> ◆ DOE attendance records 	<ul style="list-style-type: none"> ◆ Skyward Attendance Records ◆ PBIS Monitoring and Rewards
Intervention	Research/Best Practices	Resources
<ul style="list-style-type: none"> ◆ Post perfect attendance on social media ◆ Gift certificates/vouchers donated by local businesses ◆ Behavior Intervention Team individualized interventions ◆ Collaboration with the Wabash County Probation Department and Wabash County Prosecutor's Office 	<ul style="list-style-type: none"> ◆ Regular attendance improves education ◆ Engaging students in the learning process improves attendance 	<ul style="list-style-type: none"> ◆ Utilize staff development training to promote a positive school climate that is inviting and promotes good attendance

Strategies			
Instructional	Parent involvement	Media/Technology	Staff Development
<ul style="list-style-type: none"> ◆ Educational activities will be planned on a daily basis to encourage student attendance ◆ Assistant principal and school resource officer will make personal calls and home visits to those with chronic absenteeism ◆ All students will be informed of and follow the established attendance policy ◆ The assistant principal will mail home attendance letters ◆ Local agencies such as Child Protective Services, Prosecutor's Office, and Probation will be used for assistance with chronic absenteeism ◆ Behavior Intervention Team meetings will be held for students with attendance problems and potential attendance problems 	<ul style="list-style-type: none"> ◆ Parents must pre-arrange absences not listed as excused ◆ Parents must follow the guidelines set forth dealing with attendance ◆ Parents will be kept informed of student absences and the effect they have on learning and achievement 	<ul style="list-style-type: none"> ◆ Use the student management program (Skyward) to track attendance ◆ Increase use of technology in the classroom to provide incentives for students 	<ul style="list-style-type: none"> ◆ Differentiated Instruction ◆ Learning Styles ◆ Technology training to enhance instruction ◆ Research alternative scheduling and its effect on attendance as compared to a traditional schedule ◆ Brain research ◆ Alternative assessment ◆ PBIS ◆ BIT

Strategic and Continuous School Improvement and Achievement Plan Southwood Jr/Sr High School

Goal 2018-2019	Southwood Junior/Senior High School will maintain a 97% graduation rate.	
Benchmark	Southwood Junior/Senior High School maintained a graduation rate above 97% since 2014-2015.	
Supporting Data (Triangulate the data)	Assessments	
<ul style="list-style-type: none"> ◆ State graduation records 	◆ Standardized	◆ Locally Developed
	<ul style="list-style-type: none"> ◆ DOE website 	<ul style="list-style-type: none"> ◆ School withdrawal records and exit interviews
Intervention	Research/Best Practices	Resources
<ul style="list-style-type: none"> ◆ Attendance review through Skyward ◆ Behavior Intervention Team recommendations ◆ Vocational counseling 	<ul style="list-style-type: none"> ◆ Educated people improve society ◆ Those students with a high school diploma have a greater likelihood of future success ◆ A positive school climate that is inviting, engages students in their learning, and promotes good attendance has been shown to improve the drop-out rate 	<ul style="list-style-type: none"> ◆ Community Foundation

Strategies			
Instructional	Parent involvement	Media/Technology	Staff Development
<ul style="list-style-type: none"> ◆ Differentiated instruction will be used to meet the educational needs of a diverse student population ◆ Utilize opportunities from Heartland Career Center to help students develop vocational skills ◆ Credit recovery opportunities provided during the summer 	<ul style="list-style-type: none"> ◆ Parents of at-risk students will be notified regularly ◆ Attendance reviews 	<ul style="list-style-type: none"> ◆ Increase the use of technology to meet individual differences in learning styles 	<ul style="list-style-type: none"> ◆ Differentiated instruction ◆ Engage students in the learning process ◆ Learning styles ◆ Technology training

Learning Needs of All Students, Including Programs and Services for Exceptional Learners

Inclusion of academic special needs students into regular classes across the curriculum will continue with the use of co-teaching. Standardized test remediation is offered during the school day and summer school opportunities are provided for credit recovery. An “at risk” advocate is employed to help students who are struggling academically but who do not qualify for special education services. AP classes are offered as stand alone classes and in conjunction with course offerings.

IC20-31-5-4(c)

Methods to Improve Cultural Competency

Research supports the concept that a proper breakfast is linked to superior academic performance, therefore, breakfast is provided for those who qualify for free meals and to the general public. Financial support from the school is available for needy students in the form of food, money, supplies, and payment of educational field trips. Access to free medical care through compassionate local doctors may be arranged by school personnel. Modeling for the students the responsibility of citizenry to assist those in need through participation in Operation Share and Christmas shopping with elementary students is provided by FCA and student congress members. The Community Foundation funds a financial aid seminar to assist students in finding viable sources for funding a college education. Two free counseling sessions are provided at the local mental health center for any student at Southwood Jr/Sr High School who has such a need. We will use the school’s data warehouse to search data for a correlation between students on free and reduced lunches and low test scores. We will identify deficit areas and develop a plan for diminishing the shortcomings. The building administration participates in IEPs for students who are eligible and assists in the planning of their education.

Professional Development Plan 2019-2020

Date	Description	Who Responsible	Resources/Notes
June	Summer Opportunities	MSDWC Technology Team; Assistant Superintendent	
On-Going	Regularly scheduled time for teachers to collaborate; examine student data, work on common curriculum and assessments; share instructional strategies, problem solve, and research solutions; book studies	Principals	
On-Going	Regular team meetings to analyze data, problem solve, and to implement solutions	Principals, Behavior Intervention Team, and PBIS Team	
September	Involve bus drivers in PBIS; train in START with HEART Model	Transportation Director	Shannon McBride; Andrew McDaniel
October-March	Align English curriculum with Indiana Academic standards	English Department Chairperson	
October-March	Align curriculum with standards and research instructional materials	Teachers: Fine Arts, Business, College and Career Readiness, FACS, Engineering and Technology	
September		Principals, Guidance, and Lead Teachers	
On-Going	Instructional Tools/Technology Integration	Technology Staff	

Three (3) Year Time Line

2018-2019

- Review and revise goals by using results of standardized testing.
- Review and revise PBIS.
- Create new Professional Learning Communities to create new professional development plan based on current data and needs.

2019-2020

- Review and revise goals by using results of standardized testing.
- Review and revise PBIS.
- Utilize Professional Learning Communities to create new professional development plan based on current data and needs.

2020-2021

- Review and revise goals by using results of standardized testing.
- Review and revise PBIS.
- Utilize Professional Learning Communities to create new professional development plan based on current data and needs.

Positive Behavior Intervention Support - PBIS

Southwood Jr/Sr High School has adopted PBIS as a data-based problem-solving approach to behavior. It emphasizes prevention, teaching, and reinforcement of positive behavior. The PBIS program also focuses on behavioral expectations. The common elements of PBIS are as follows: school-based team planning, faculty and staff input, problem solving approach, data-based decision making, established expectations and rules, system to acknowledge desired behavior, consequence and infraction system, continuum of behavior supports, and monitors. We are learning that schools who have successfully initiated and sustained PBIS are finding: reductions of about one half in office referrals, suspensions reduced by 66%, increased attendance, increased instructional time, improved satisfaction of all, common language and consistent processes, dropout rate decreased by half, and unsafe incidents decreased by 2/3.

NOBLE KNIGHTS

Personal Best	<ul style="list-style-type: none"> + be to class on time + have all work completed + be attentive + listen and follow all instructor's requests

NOBLE KNIGHT™
Positive Behavior Notices

§ To track positive behavior supports, teachers will be supplied with a pad of "Knight Notes," which is a postcard with a carbon copy. This form is to be used when a student exhibits exemplary behavior inside and outside the classroom. **Respect, Responsibility, and Personal Best.**

\$ “Knight Notes” identify the student by name and briefly describe how he/she performed positive behavior. *The carbon copy will immediately be given to the student. The postcard will be placed in the designated staff member's mailbox for processing.*

\$ There will be a weekly drawing for students who have earned a Knight Note.

\$ From slips collected every week, a central tracking system will record that a Knight Note was given to an individual student.
